

IRON HIGHWAYS.

The General Passenger Agents and So-called "Labor Bureaus."

The Reading Directory—Decision of the Illinois Railroad Commissioners—Bright Prospect for the Railroads.

Speculation is no longer rife as to what will become of the Toledo and Indianapolis road. This line is waiting a purchaser.

There are very few of the Indianapolis roads that do not demand that those of their employees who handle large sums of money should be insured in the Canadian Guaranty Company—and in fact very few in the United States that do not require this.

An Indianapolis railroad man has just received a letter from a friend in New Orleans, stating that the General Passenger Agents of lines leading from that point have been all along, and are at present, making desperate efforts to rid that city of scalpers. They are making little or no headway, however, the letter says, and the railroad men continue to come to from all parts of the country. Indianapolis, he says, is about the only city in the Union that is not represented at the Crescent City by a scalper.

"There is one thing certain," said an official of the Bee Line yesterday, "we will have to spend very little money this year in making improvements. The entire main line and all divisions are in splendid condition. Last year we purchased several thousand dollars worth of new rolling stock, and in fact all of our engines and cars are comparatively new. Our freight and passenger depots are kept in good order, and we are making as good time as any other road in the country, and better than a large portion of them."

Judging from the talk of a prominent railroad man, the prospects for the railroads of the country are not near so bad as they have been pictured. This gentleman says the railroads have felt a slight and steady improvement since the middle of December, and the period of depression in the latter months of 1884 seems to have died out with the year. The improvements of the steel and iron markets mean a great deal. The former had reached bedrock by the first of December, and about the middle of the month a reaction set in. It is a fact that the improvement of the market will start railroad operations to building, although the work could be done cheaper when labor is cheap and steel commanding a low market price. Improvement of one market is usually followed by another. Before the middle of February this railroad man thinks that the good old times will be reinstated.

The Railroad and Warehouse Commissioners, of Illinois, at a recent meeting considered further the question of a general reduction of freight rates throughout the State, and rendered a decision which reads as follows: "The railroads claim that they bear their fair share of the burden of the hard times and low prices by the decreased tonnage and loss of passenger traffic necessarily incident thereto, and that this burden rests so heavily upon them that they cannot stand a further reduction in rates until the business is recuperative. The scheme of reduction being resisted upon the employment they give to labor. That there are but nine Illinois roads in the State self-sustaining on Illinois business, and that the large number of Class B roads, the most essential to the farmers, are non-productive. It has been shown that any general reduction would be beneficial to any general business interests of the State at present, and considering all the circumstances as developed, the commission is not ready to publish a radical reduction applicable to the transportation of all commodities on all the roads of the State. The commission will continue to hear any and all who desire to be heard on these subjects, and will act unhesitatingly in the light of the best information obtainable."

The General Passenger Agents of many of the large lines are being bothered by the agents of so-called "labor bureaus," who desire special rates for emigrant travelers. A great many accommodations have been given to this class in the past, and the general result has been that instead of confining themselves to their legitimate business the members have jumped into the ticket-scalping business, with considerable loss to the railroad companies and very little benefit to any one but themselves. The scheme of advertising for several hundred men to go to a certain point for work, when in fact there is no work there, has become too familiar to need further comment. The more men the "labor bureaus" send out, the more money it makes. Allowing, however, that it is what it purports to be a labor bureau—and that it is honest in all its transactions, what is to keep the intending traveler with some way station as his objective point from buying a special rate ticket to say New Orleans, and dropping off at his way station on this side of that city, thus practically cheating the railroad company of the difference between the arbitrary rate to the true objective point and the special rate to New Orleans? With these arguments in mind, railroad companies are gradually coming to the conclusion that many of the labor bureaus are a delusion and a snare, and their days are probably numbered.

The Reading Bondholders' Committee has selected the following gentlemen to be voted for as Directors at the annual meeting of the stockholders on Monday next: J. B. Lippincott, J. V. Williamson, F. A. Comly, Robert H. Sayre, Joseph Wharton and Joan Wamamaker. Mr. George De B. Keim will have no opposition for the Presidency. The three first-named gentlemen are members of the present Board of Directors and the others are new selections. It had been determined some time ago to make a change in the directory of the company. The board as at present constituted is regarded as representing what is known as the Gowen regime, and this composition, after the election on Monday next, will be neutralized by the new membership. Messrs. Lippincott and Williamson will be retained because of their large interest in the securities of the company, and Mr. Comly because of his executive ability, his connection with the Northern Pennsylvania Railroad and his identification with large manufacturing interests. Messrs. Lewis and Allen, the retiring members of the board, had contemplated resigning for some time past, and Mr. Knight, the third retiring member, has such large business interests that he could not give the Reading Company as much of his attention as he felt it was entitled to. Of the new members Joseph Wharton was chosen because of his large interests in the Reading securities; John Wamamaker, because Mr. Vanderbilt especially desired it; Robert H. Sayre, because of the extended knowledge of railroad management he will bring into the new board.

The Cold Wave. The cold wave signal was hoisted at 11 o'clock yesterday morning by order of Chief Eizen, of the Signal Service. If he had

ordered it a day sooner it might have done some good, but the cold wave had already set in when the signal was hoisted. During the day the thermometer fell fifteen and one-half degrees. The weather report predicts but five degrees lower temperature, but it will probably fall ten or fifteen degrees lower, it being 20.2 at 10 o'clock last night. The two past days would be creditable for March and not out of place in April. Today will probably be the coldest on the line of the wave.

AMUSEMENTS.

The prices during the engagement of the Wilbur Opera Company will be 10, 25 and 35 cents.

The Zoo gives a matinee to-day, and to-night ends the week's bill. A new one on Monday night.

The Museum will open for all day at 10 o'clock this morning. As there is no school to-day, take the children to the curiosities.

A grand matinee will be given this afternoon of "The Planter's Wife." The engagement will be concluded by the performance to-night.

Misses Julia and Mable Nichols, Miss Ida Howell and Mr. Charles K. Black, of this city, are members of the Wilbur Opera Company, which appears at English's Monday next.

Minnie Palmer, "My Sweetheart," matinee at the Grand to-day at 2 o'clock. Cheap prices—twenty-five and fifty cents. Admission: reserved seats, seventy-five cents. Miss Palmer will wear some \$40,000 worth of diamonds for the benefit of the ladies.

"The Planter's Wife" was produced again at English's last night. This is an intensely interesting play and should be seen by all play-goers. It is handsomely presented by Mr. Lacey and his company. Go to the matinee to-day, with final performance to-night.

Mr. Ramsey Morris, business manager of the "May Blossom" Company, was at one time an artist's model. He posed for a number of figures on the Monmouth Statue of Liberty, which is now being erected, and was also the model of a "Paul Revere," which graces Boston. Mr. Morris has recently copyrighted an emotional drama, entitled "Two Women," from which he hopes great things.

On account of illness Miss George Tyler has temporarily withdrawn from "A Hoop of Gold" company, and her place has been filled by Miss Beatrice Leish, late of Brooks & Dickson's "La Chatterbox" company. It is stated on good authority that Miss Tyler is shortly to be wedded to Mr. John T. Dickson, manager of "Romany Rye" company No. 2, and brother of Manager Dickson, of the Grand Opera House.

The sale of reserved seats for the engagement of the famous "Hoop of Gold" company, at the Grand Opera House the first half of next week, opened at the theater box-office yesterday morning at 9 o'clock. "A Hoop of Gold" is one of the best of the most successful English melodramas, and had long runs in both London and New York. The company is a strong one and carries a car-load of special scenery. Regular house prices will rule. The last half of the week the famous Madison Square "May Blossom" company will be the attraction.

A largely increased and thoroughly delighted audience witnessed Miss Minnie Palmer's second performance of "My Sweetheart" last night at the Grand Opera House, and she was again received with every manifestation of popular approval. Large and delighted audiences! That tells the story, and it is better than columns of praise or criticism could possibly do. Some one has said that Miss Minnie Palmer's success was due to judicious management and shrewd advertising schemes. Nothing of the kind. She has real artistic merit. That's it in a nutshell: the reason why people flock to see her? And why would people flock to see her? And further, why did she capture all England? Shrewd advertising schemes can't be worked over there. Miss Palmer appears in "My Sweetheart" again this afternoon and to-night. Go and see her and judge for yourself of the truth of what we have said. The next attraction at the Grand will be the beautiful melodrama, "A Hoop of Gold."

The Harden Fire Grenade. Harden's Improved Fire Grenade was tested late yesterday afternoon on Massachusetts avenue in front of the Fire Department Headquarters in the presence of a number of persons. The round bottles containing the extinguishing fluid will hold about a pint, and are divided into three sections. A large store box filled with kindlings, saturated with coal oil and plentifully smeared with tar was set on fire, and in a moment was burning fiercely. J. L. Ayers, the State agent for the company, burst four of the grenades on the blazing pile and the fire was extinguished. The test was satisfactory to both Mr. Ayers and the spectators.

The kickers in Mr. Beecher's church have nearly all subsided. When they found they could go they didn't care to.

The barnyard is the field for winter work. Manure saved is manure made.

Advice to Mothers.—MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once. It produces natural, quiet sleep, by relieving the pain from teething, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the inflamed gums, always all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

DIED.

WALDO.—Mrs. Jane McGill Waldo, aged sixty-nine years. Funeral from her late residence, No. 20 McGill street, Sunday, January 11, at 2 p. m.

SOCIETY NOTICES.

The members of Center Lodge No. 18, I. O. O. F., are hereby notified to meet at the Lodge Hall on Sunday, the 11th inst., at 1 o'clock p. m., sharp, for the purpose of attending the funeral of our late brother, John Buchanan. Members of the order in good standing are invited to take part in the service.

WILLIAM A. MOORE, N. G. P. E. KENNINGTON, Recording Secretary.

C. E. KREGGLO & WHITEHETT, Funeral Directors and Embalmers, No. 77 North Delaware street. Telephone connection to office and residence. Carriages for Weddings and Parties.
